Date of birth

1996/07/07

Driving license

B

Profile

I am a positive and detail-oriented person who loves technology, problem solving and creative design.

Working with computers have been a passion of mine ever since I can remember which is why I chose to study and broaden my knowledge in software development.

I have been working with technologies such as Blazor webassembly, Unity 3D, SQL, ASP.NET Core and more.

Looking forward to talk more about myself in an interview.
